Using Virtual Libraries

Virtual Libraries give access to internet sites and resources which have been selected by subject experts and librarians » The **Internet Public Library** is a good example of a virtual library. It has a search engine to quality resources on the web. Other features include pathfinders, guides to research and help on assignments.

URL:

<http://www.ipl.org/>

Other examples of virtual libraries are

Virtual LRC

,

Library Spot

,

Infomine

and

Intute

.
